Radio Regulations Navigation Tool

An application that allows users to navigate through the following publications:

- Volumes I to IV of the Radio Regulations
- Rules of Procedures
- ITU Constitution and Convention
- Plenipotentiary Conference Resolutions
- ITU-R Recommendations mentioned in the RR (in addition to those incorporated by reference and included in RR Vol. 4)

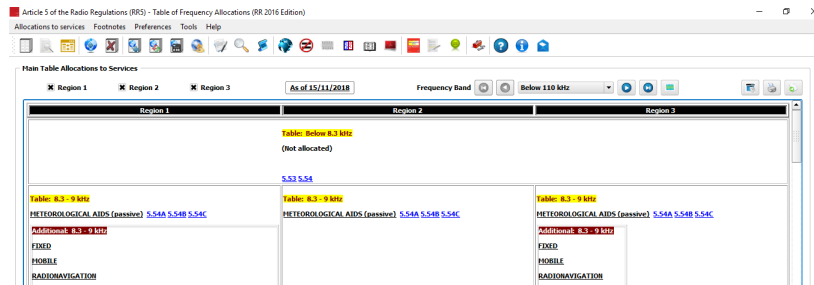

www.itu.int/pub/R-REG-RRX-2021

RR Art 5 FAT Viewer

The RR Art.5 FAT Software is a tool to consult and analyze the RR Frequency Allocations Table and its associated notes (as they appear in RR Article 5 and in other related texts).

It allows, among other things:

- To trace and compare the evolution of the Article 5 Table and its associated footnotes (from the 2001 Edition onward)
- To extract and modify the National Table of Frequency Allocations for a given geographic area (country), based on the corresponding "International Plan" from RR Art. 5

Conference Proposal Interface

Preliminary version to be used for preparation of draft documents with proposed actions (MOD, ADD, NOC, SUP) to RR-2020
