

## Agenda Item 1.2

- 3 300-3 400 MHz (Reg1 & 2) : However, RR footnote 5.429F identify IMT for India. Hence support for global IMT identification for economies scale benefit & sharing studies for adjacent band protection.
- 3 600-3 800 MHz (Reg2): Indian satellite will not be affected. However we shall support sharing & compatibility studies.
- **6 425-7 025 MHz (Reg1) : Indian satellite shall be protected**
- 7 025-7 125 MHz (Global ): Support IMT identification and sharing & compatibility studies for adjacent band protection
- 10-10.5 GHz (Reg2) : Support studies to see any adverse effect on IMT identification
  
- **Protection of Satellite ( 6425-7 025 MHz in-band & 7 025-7 125 MHz adj-band**
